

NO_QTY Production Material Request (PMR) & RM Issue Workflow Questionnaire

Dear Sir,

During NO_QTY Sales Order pilot testing, we found that Raw Material (RM) handling requires confirmation before finalizing the ERP workflow.

Please provide your preferred process for the following situations.

1. RM Requisition

Current proposal:

RS Finalized

→ Work Order Created

→ Production raises PMR

→ Store issues RM

→ Production starts

Question:

Should Production always raise a PMR before production?

☐ YES

☐ NO

If NO, please explain the preferred process.

2. RM Issue Quantity

Example:

WO Qty = 500 Nos

RM Required = 10 Kg

Question:

Should Store issue:

☐ Full RM quantity (10 Kg)

☐ Partial RM quantity based on stock availability

☐ Either, depending on Store decision

Comments:

3. RM Shortage Situation

Example:

RM Required = 10 Kg

Available RM = 6 Kg

Question:

What should happen?

- ☐ Store issues 6 Kg and Production starts partial production
- ☐ Production waits until full RM is available
- ☐ Store decides case-by-case

Comments:

4. Production Stops Before WO Completion

Example:

WO Qty = 500 Nos

Produced = 300 Nos

RM Issued = 10 Kg

Actual RM Consumed = 8 Kg

Balance RM = 2 Kg

Question:

What should happen to the remaining 2 Kg?

- ☐ Return to Store
- ☐ Keep with Production for next cycle
- ☐ Store decides manually

Comments:

5. RM Return Process

If RM is returned from Production:

Question:

Should ERP create an RM Return Note?

☐ YES

☐ NO

If YES:

☐ Quantity-wise return only

☐ Quantity + batch/lot tracking

Comments:

6. Next Cycle Shortage Handling

Example:

Cycle Requirement = 1000 Nos

Produced = 800 Nos

Shortage = 200 Nos

Question:

Should the shortage automatically carry forward into the next RS?

☐ YES

☐ NO

Comments:

7. PMR Closure

After Production stops and RM balance is returned:

Question:

Should the PMR automatically close?

☐ YES

☐ NO

Comments:

8. Ownership Confirmation

Please confirm responsibility for each activity.

Activity | Department

Monthly RM Planning | _____

Purchase PO | _____

GRN | _____

RM Allocation | _____

RM Issue | _____

Production Request | _____

RM Return | _____

Production Entry | _____

QA | _____

Dispatch | _____

9. Procurement Confirmation

Question:

Should Purchase Department buy RM based on:

- ☐ Monthly Production Planning
- ☐ Minimum Stock Planning
- ☐ Combination of both

Question:

Should Purchase be triggered from:

SO?

☐ YES ☐ NO

WO?

☐ YES ☐ NO

PMR?

☐ YES ☐ NO

RS?

☐ YES ☐ NO

10. Final Confirmation

Please confirm the preferred future NO_QTY flow:

- ☐ RS
- WO
- PMR
- Store Issue
- Production
- QA
- Dispatch

OR

- ☐ Any other flow (please describe)
