

Decision Questions (Need Final Answers)

Q1

For MPRS calculation, what should be the primary source?

Option A

Monthly Production Plan entered manually by Store.

Option B

NO_QTY Requirement Sheets + Regular SO demand automatically feed MPRS.

Option C

Combination of both.

Q2

Regular SO demand should be:

A

Included automatically in MPRS

B

Remain separate and procure separately

Q3

For NO_QTY customers:

Should MPRS be generated from:

A

Current open Requirement Sheets only

B

Requirement Sheets + Last Shortage Carry Forward

Q4

When monthly demand is calculated:

Should MPRS include:

- Monthly demand
- Minimum stock top-up
- Safety stock
- Open shortage carry-forward

or only monthly demand?

Q5

Purchase Planning Horizon

You earlier said:

- Monthly planning
- Daily breakdown
- Minimum 3-day rollover

Do we keep:

A

Current Month + Daily Breakdown

or

B

Current Month + Next Month Forecast
